STUDENT ENROLLMENT CLIMBS TO 2,845 BY UNOFFICIAL COUNT

An 8.9% increase in the number of students registering this fall over last year's fall figures has been recorded in a preliminary count by the Admissions and Records office.

Assoc. Dean H. Stephen Prouty of that office states that the rise in student enrollment (2,845) is attributed to the increased number of students in evening programs and graduate students. The growth in number of students represents a 2.3% increase in F.T.E (2,342.6) over the Fall, 1972 figure (2,289) of F.T.E.

The student enrollment figures were taken as of the end of registration, with last-minute additions and drops not counted. October 3 is the last day to add classes. Official census date for student enrollment is October 17.
